

Thoughts and Actions Concerning Public Access Policy Mandates

Keith Gigliello, MS

Sr. Manager, Digital Publications

American Society of Hematology

2016 Sessions

- 🔬 Public Access Policy Mandates & How Publishers Are Responding
- 🔬 Implementing Standards: Data and Data Exchange in Scholarly Publishing

Thoughts

- 🔬 Funding agencies and publishers share many of the same objectives
- 🔬 It is reasonable for funders to mandate that research is made accessible

Questions

- 🔬 Is it reasonable for a single mandate to be applied to all fields?
- 🔬 Can dialogue on public access and copyright be decoupled?
- 🔬 When is more information problematic?

Actions

- 🔗 Continue to monitor new developments
- 🔗 Keep an open mind
- 🔗 ASH is moving to become a member of CHORUS (currently a signatory)
