

# Highlights of the CSE Board Meeting

The CSE Board of Directors met on 24 May 2005 in Atlanta, Georgia. Highlights of the meeting follow:

1. The short courses before the 2005 CSE annual meeting were successful. The short course on statistics, which was a pilot course in 2005, had high registration and received favorable comments. The Board voted to continue the short course on statistics as an integral component of the short-course program.
2. With increased overseas interest in CSE and with the success of the scholarship program, which provided the funds for four non-North American editors to attend the 2005 annual meeting, the Board directed the Task Force on Science Journals, Poverty, and Human Development to develop a strategic plan for CSE's international involvement.
3. Because of an unexpected change in management at the originally selected site, the CSE 49th annual meeting will be held on 19-23 May 2006 at the Hyatt Regency New Orleans, which is just outside the famous French Quarter.
