

# CSE 2008 in Vancouver: Polar Bears and More

**Iain E P Taylor, Co-chair**  
2008 Program Committee

Join us 16-20 May in Vancouver, BC, for the annual meeting, "CSE 2008: A Climate for Change".

The keynote address, on Sunday, 18 May, will be by Ian Stirling, a world authority on polar bears. Stirling is senior research scientist in the Canadian Wildlife Service, Edmonton, Alberta.

The plenary address on Monday, 19 May, will be by Michael Hayden, director of the University of British Columbia Centre for Molecular Medicine and Therapeutics. Hayden is a world authority on Huntington disease and editor-in-chief of *Clinical Genetics*.

The meeting also will include about 20 other sessions covering a broad array of editorial topics. Further information will appear in the March-April issue of *Science Editor*. Details regarding the meeting will be posted on the CSE Web site ([www.CouncilScienceEditors.org](http://www.CouncilScienceEditors.org)) as soon as they
